

# BETONAC<sup>®</sup> -FIX

## HIGHLY ACTIVE CEMENT, CONCRETE AND LIMESCALE REMOVER

*With the **BETONAC-FIX**, you  
seriously reduce cleaning time*

BETONAC-FIX has been developed through close teamwork with our successful partners in the construction industry.

**Profit from the positive experience of your industrial partners or your competition!**

BETONAC-FIX is a proven cleaning agent for the fast cleaning of paving slabs, concrete blocks, cement silos and readymix lorries, as well as other equipment used in the construction industry.

BETONAC-FIX is a transparent green acidic liquid that contains special degreasing agents and rust inhibitors, that give outstanding cleaning strength and results in a short time. The product is almost odourless and the cleaning tensides highly biodegradable.

- Quickly removes areas of cement and limescale on paving slabs, tiles, concrete plants, cement silos and readymix trucks
- Cuts cleaning times
- Almost odourless - no fumes
- Washing raw materials are highly biodegradable
- Integral degreaser - wide cleaning application
- Economical - highly concentrated
- Certified by the institute of hygiene Gelsenkirchen, Germany

## BETONAC®-FIX

- Quickly removes areas of cement and lime-scale on paving slabs, tiles, concrete plants, cement silos and readymix trucks
- Cuts cleaning times
- Almost odourless - no fumes
- Washing raw materials are highly biodegradable
- Integral degreaser - wide cleaning application
- Economical - highly concentrated
- Certified by the institute of hygiene Gelsenkirchen, Germany

## BETONAC®-FIX

Product-No. 02.050

### HIGHLY ACTIVE CEMENT, CONCRETE AND LIMESCALE REMOVER

#### DESCRIPTION

BETONAC-FIX is a transparent green acidic liquid that contains special degreasing agents and rust inhibitors, that give outstanding cleaning strength and results in a short time. The product is almost odourless and the cleaning tensides highly biodegradable.

#### ADVANTAGES

- Very economical – through dilution in water
- Fast – less down-time
- Odourless – no noxious fumes
- Degreaser – wider cleaning than plain acids
- The washing raw materials are highly biodegradable

#### APPLICATION

BETONAC-FIX should be mixed with 1:2 – 1:10 with water depending on the degree of contamination.

Apply by brush and agitate the solution on the surface. Once the initial foaming has stopped, reapply the solution.

After cleaning rinse thoroughly with clean water.

#### TECHNICAL DATA

Colour:	Green
Form:	Liquid
Specific Weight:	1,10
pH Value:	< 0,5
Contents:	Hydrochloric acid, phosphoric acid, biodegradable tensides

#### IMPORTANT NOTES

BETONAC-FIX may not be stored in metal containers. Do not apply this product to enamel. Always try this product on a small area before widespread application.

#### PRECAUTION

BETONAC-FIX is irritant to eyes, skin and breathing. Avoid contact with eyes and skin. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Wear suitable protective clothing, gloves and eye/face protection.
