

# BETONAC<sup>®</sup>-FIX 2

## HIGHLY ACTIVE CEMENT, CONCRETE AND LIMESCALE REMOVER

*With the **BETONAC-FIX 2**, you  
seriously reduce cleaning time*

BETONAC-FIX 2 has been developed through close teamwork with our successful partners in the construction industry.

**Profit from the positive experience of your industrial partners or your competition!**

BETONAC-FIX 2 is a proven cleaning agent for the fast cleaning of flagstones, tiles and slabs as well as ready-mix trucks, cement carriers and all building plant equipment involved in using cement or concrete.

BETONAC-FIX 2 is a red, clear strong acid. Carefully formulated cleansing raw materials, special grease removers and inhibitors and the combination of hydrochloric and phosphoric acids produce a fast acting effective cleaner. The available tensides are biodegradable and the concentrate is almost odourless.

- Quickly removes areas of cement and limescale on paving slabs, tiles, concrete plants, cement silos and readymix trucks
- Cuts cleaning times
- Almost odourless - no fumes
- Washing raw materials are highly biodegradable
- Integral degreaser - wide cleaning application
- Economical - highly concentrated

## BETONAC®-FIX 2

- Quickly removes areas of cement and lime-scale on paving slabs, tiles, concrete plants, cement silos and readymix trucks
- Cuts cleaning times
- Almost odourless - no fumes
- Washing raw materials are highly biodegradable
- Integral degreaser - wide cleaning application
- Economical - highly concentrated

## BETONAC®-FIX 2

Product-No. 02.051

### HIGHLY ACTIVE CEMENT, CONCRETE AND LIMESCALE REMOVER

#### DESCRIPTION

BETONAC-FIX 2 is a red, clear strong acid. Carefully formulated cleansing raw materials, special grease removers and inhibitors and the combination of hydrochloric and phosphoric acids produce a fast acting effective cleaner. The available tensides are biodegradable and the concentrate is almost odourless.

#### ADVANTAGES

- Economical – dilutes with water
- Fast acting – saving time
- Almost odourless - causes minimal irritation
- Degreasing action – leaves a brighter finish
- Highly biodegradable

#### INSTRUCTIONS FOR USE

BETONAC-FIX 2 is a concentrate and should be diluted with water between 1 and 10 times depending on the degree of contamination of the surface to be cleaned.

Application is by means of a brush. Where there are heavy deposits repeated applications might be necessary. The cleaning action is visible by the foaming reaction on contact with the contaminations of concrete or cement. If the foaming stops further applications are needed until the surface is cleaned. After cleaning the surfaces must be well rinsed with water.

#### TECHNICAL DATA

Colour:	Red
Form:	Liquid
Specific Weight:	1,15
pH Value:	< 0,5
Contents:	Hydrochloric acid, biodegradable non-ionic tensides

#### IMPORTANT NOTES

BETONAC-FIX 2 may not be stored in metal containers. Do not apply this product to enamel. Always try this product on a small area before widespread application.

#### PRECAUTION

BETONAC-FIX 2 is irritant to eyes, skin and breathing. Avoid contact with eyes and skin. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Wear suitable protective clothing, gloves and eye/face protection.

#### REMARK

Whilst information and/or specification contained herein is to the best of our knowledge true and accurate, and is based on many years experience, we cannot accept any liability either directly or indirectly arising from the use of our products, whether or not in accordance with any advice, specification or recommendation given by us, as we have no direct or continuous control over how or where our products are applied.

LEYDE-PRODUCTS are guaranteed against defective materials and manufacture and are sold subject to its standard terms and conditions of sale.
